

join me as
we feel sounds
in our bodies

share the experience of soundmaking and listening in a physical way

- whoosh me round and round as we make sounds together with our voices
- put bells on my wrists or ankles, and bells on yours too, and play shaking games
- boing up and down on a trampoline with me
- have a splash in the bath together
- put a balloon between us and share the sounds made with our hands and voices
- make funny noises down a cardboard tube held to my ear, and then swap
