

show me that you
love it when I make
patterns in sound
with my voice

give me lots of encouragement when I start to make patterns with my voice

- give me the time and space to experiment with pattern-making
- don't interrupt me when I'm concentrating!
- when I pause, give me lots of encouragement to get going again
- tickle me, kiss me, ask for more
- bounce me gently up and down in time to the pattern I'm making
- if my voice goes up and down, move my arms up and down in time with the pattern
