

give me a hand
to make patterns
up and down
a keyboard

give me lots of opportunities to explore a keyboard or piano

- gently show me how to play single notes with one finger (use either hand)
- show me how to play a simple beat on one note
- use the black notes and the white notes
- give me lots of time to try for myself!
- now show me how to play simple up and down patterns on three notes next to each other
- sing as you play
