

collect families  
of soundmakers  
for me to explore

card  
20

help me make sense of things by dividing my soundmakers up into different types ...

- metal utensils (teaspoons, a whisk, measuring cups, a sieve)
- wooden things (spoons, claves, an agogo, castanets)
- things to shake (maracas, rattles, a small rainstick, a cabassa)
- scrapers (a guiro, wooden frogs, a washboard)
- things to pluck (ukulele, banjo, guitar)
- show me how the same simple patterns can be made on all the instruments
