

echo the sounds I make  
with my voice, and  
give me time  
to copy yours

## copy my voice and show me that I'm like you and you're like me

- copy the sounds that I make with my voice
- give me plenty of time to think about what I've just heard!
- when all is quiet, make a sound with your voice similar to ones that I like to make
- give me lots of time to respond
- gradually you might hear me copy you more and more accurately – it takes a lot of practice!
- once I've got the hang of it, play 'pass the sound' with me and someone else
