

copy the sounds I make
with everyday objects
and instruments

copy the sounds I make and show me that I can influence what you do

- copy the sounds and patterns I make on instruments or other soundmakers
- use the same instrument or object at first, so I can feel what is happening
- next, use a second soundmaker or instrument that is the same as mine
- show me what is happening
- now use a different instrument to copy the same pattern
- swap instruments!
