

play 'pass the  
sound' games  
with family and  
friends

## copy sounds round a circle to give me a sense of being in a group

- sit me in a circle of three or four people; one makes a sound with her voice, the next person copies ...
- ... and round the sound goes
- now do play the same game with body sounds like clapping, and then with soundmakers
- all the same to start with ...
- ... and then different ones
- gradually add more people to the circle
