

help me play short  
musical phrases on  
instruments

## help me play fragments of music on instruments – some made up, and some I have heard in everyday life

- place your hand *under* mine and show me how to make short rhythms on percussion instruments
- stick a small tactile marker on 'middle C' in a keyboard, and show me where it is
- help me play simple patterns of three or four notes that start on C
- use one finger to start with – show me how to find the notes next to each other by touch
- encourage me to use my thumb and other fingers too – use either hand
- show me how to play the jingles, ring tones and other sounds I hear around me
