

play the 'copy game'
with me, using
your voice

make up simple songs with me, made up of short repeating phrases

- encourage me to sing one of the short bursts of music I've been learning, then copy me
- change over: encourage me to copy you
- now take turns, so the short bursts of music are linked together to create a simple song
- encourage me to sing some of the short phrases from the website (such as 'hello', 'finished' and 'goodbye')
- make up short bursts of melody without words ('doo-be-doo-be-doo')
- copy each other's phrases to make simple pieces of music
