let me join your band!

card 46

start with a simple drum pattern, that you play with me at first, and then play different rhythms that fit at the same time

- then do the same thing while I play a repeated pattern on the keyboard (styles like reggae are good for this)
- now let's play a simple melody together on the keyboard: it's best to have two instruments if possible!
- then try playing *different* parts: let me play the tune I know first before teaching me a simple accompaniment in the left hand
- teach me two or three chords on the keyboard that I can keep playing while you sing or play
- let me try the same thing on the ukulele
- add more people to the band!
