

make me my own  
'sound cave'

cut off one side of a large cardboard box, and hang small everyday soundmakers inside

- a rattly chain, a little bell, some crinkly paper
- a small bunch of keys, a squeaky soft toy
- lie me on my back inside, so I can reach what's there
- help me to find things to start with by shaking the soundmakers
- then give me lots of time to discover things for myself
- but don't leave me: always make sure that I am safe
